It included claims in what is known as the Central Yellow Pine association territory—Louisiana, Mississippi and western Alabama—and involved a refunding of amounts paid by a large number of shippers of yellow pine lumber from the territory to points in other states, on which an overcharge of two cents a hundred pounds was collected by various railroads.

The Cleveland club has purchased first baseman Luders from the Fresno club.

It is said that the great Yale back, Ted Jones, has signed with the New York Giants for next season.

Jack Thielman, the Boston American cast-off, who is now with the American association, is battling for over 200 this season.

The Cubs are now carrying eight pitchers, Reulbach, Brown, Kreh, Overall, Pfeister, Hageman, Ragon and Higginbotham.

"Rube" Waddell, who has played with the Athletics and the St. Louis team, is said to be about to be relegated to the minor leagues.

Cole, the new White Sox player, broke into last company with a bang last week. He slammed the New York pitchers for four safeties.

Bill Evans is rated as the best umpire on bases in the American league. Jack Sheridan still ranks as the best ball and strike artist.

Eddie Collins was the first player in either league to make 150 hits. This record was reached in the third game with Cleveland.

Of the Philadelphia Athletic team, the only players who are batting under the 200 mark are the pitchers, Coombs, Krause, Morgan and Vickers.

A Pittsburgh man says that he has \$5,000,000 that he will bet 2 to 1 odds that Pittsburgh will beat the Tigers in post season games. He takes a good deal for granted.

Hardwick defeated the Bethel aggregation labor day by a score of 4 to 3, notwithstanding the fact that Bethel had an old Northern league player in the box.

### Basketball Reform.

The central board of officers of the intercollegiate basketball rules committee has adopted a unique plan for the improvement of basketball officiating. A list of competent game officers will be printed in the basketball rule book, which is published in October. From this list teams from all over the country can select officials to run games. These teams will report on the work of the officers, and in this way the central board of officers will keep in touch with the work of the men on the list.

The board will distribute explanatory literature from time to time during the course of the season, and, in addition, simultaneous meetings of officers will be held in New York, Chicago, Lawrence, Kan.; Portland, Ore., and Houston, Tex., on Dec. 4.

"To civilize them."  
"What good does that do them?"

"What do they work for?"  
"To become prosperous and rich."  
"What good does prosperity do them?"

## FIGHT IS WON BY BALLINGER

Victory by Secretary of the Interior

### OVER PINCHOT COMPLETE

Taft Backs Cabinet Officer—Finds Federal Forester's Attack Unjustified.

Statement on Executive's Position Expected Soon.

Beverly, Mass., Sept. 8.—President Taft upheld Richard A. Ballinger, secretary of the interior, in the fight made on Ballinger by Gifford Pinchot, United States forester, and friends of Pinchot.

In a conference of two hours and a half at the Taft cottage Monday night, the president went over in detail with Mr. Ballinger and Oscar Lawler, assistant attorney general for the interior department, most of the phases of the charges connected with the Cunningham coal claims in Alaska, and with the accusations made by Pinchot that the water power trust has been aided by Ballinger's handling of public lands in the West. He found nothing to shake his confidence in Mr. Ballinger. On the contrary, he found that the fight made by Pinchot is not justified.

Mr. Taft spent yesterday at the Brookline Country club, taking in the festivities of the Yale field day, but he will have another conference with Mr. Ballinger and Mr. Lawler today. Mr. Ballinger, who is at the Hotel Touraine in Boston; refuses to discuss the matter in any way, contenting himself with the statement that the president will probably have something to say on the merits of the case in due time. He will return to the West some time next week, and will carry out his plan of traveling with the president on a part of the latter's western tour.

Any details of the future course of the administration in regard to the Ballinger-Pinchot controversy cannot be obtained at this time. All that is known is that Ballinger is the victor; and as the fight has been a bitter one, so will the victory be all the more complete. Friends of the president are predicting that the whole forestry bureau of the agricultural department will be overhauled, and that Pinchot, its head, and Assistant Forester Price will go. It is taken for granted that Ballinger will not remain in office if Pinchot continues to hold office. And between the two the president will make only the one choice—Ballinger.

When the secretary of the interior arrived in Beverly Monday afternoon, he and Mr. Lawler carried three big portfolios bulging with official documents. They were the Ballinger ammunition.

The president motored in from Beverly to Boston for the field day with Capt. Archibald W. Butt, his military aide. Mr. Whipple, at whose home in Boston the luncheon of the day was served, was in Yale at the same time the president was there, and the two renewed an old acquaintance. There were more than 200 guests at the luncheon. There was no speechmaking at any time during the day.

### TO OPEN HAZING CASE.

Congress May Call For The Board's Report.

West Point, Ga., Sept. 8.—Cadet John H. Booker, Jr., of this city had nothing whatever to do with the hazing of Cadet Rolando Sutton, but was dismissed from the West Point Military academy for permitting, without interference, cadets of the third class to require cadets of the fourth class to get down on all fours and run a race as horses and then auction them off. This is the information just received here in a letter from Secretary of War Dickinson to Congressman W. C. Adamson. Booker was a senior. Secretary Dickinson stated that it was likely Congress at its next session would call for and publish the report of the Board of Inquiry.

### TO APPEAL MISSOURI CASE.

Plan of Interstate Commerce Commission.

Washington, Sept. 8.—Although no formal conference of the Interstate Commerce Commission has been held since the promulgation of the United States circuit court's decision in the Missouri rate case, it has been determined that an appeal shall be taken to the United States supreme court as soon as possible.

### D. F. DAVIS SUCCESSFUL.

After a great deal of effort and correspondence D. F. Davis, the popular druggist, has succeeded in getting the Dr. Howard Co. to make a special half-price introductory offer on the regular fifty-cent size of their celebrated specific for the cure of constipation and dyspepsia. This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures.

Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles, that D. F. Davis is willing to return the price paid in every case where it does not give relief.

So great is the demand for this specific that D. F. Davis has been able to secure only a limited supply, and everyone who is troubled with dyspepsia, constipation or liver trouble should call upon him at once.

### PEACE AT MCKEES ROCKS.

Strike About Over—Several Concessions for the Men.

Pittsburg, Pa., Sept. 8.—After 55 days of strike in which eight lives were lost and more than 50 persons injured, the trouble between 8,000 employees of the Pressed Steel Car company at McKees Rocks and their employers is ended. At a meeting of the strikers yesterday afternoon it was decided to vote to-day to return at once to work in the mills. The men are expected to be back at work on Thursday.

Commissioner Charles P. Neill of the department of commerce and labor was at McKees Rocks early Monday investigating strike conditions. Commissioner Neill reached Pittsburg at 9 a. m. Special Agent Harry W. Hongland of the department of justice, who has the charge of the McKees Rocks strike case, took Commissioner Neill through the mills without revealing his identity and later the pair had a long conference with United States District Attorney John R. Jordan.

In the afternoon Manager James Ryder of the car works met a committee from the chamber of commerce to McKees Rocks and authorized the chamber to practically close the strike. Mr. Ryder announced that Chief of Police Farrell of the mills has been suspended from office and would be discharged later. This is one thing for which the men have been fighting. The manager also said that the 900 strike leaders whom the company said could never again work in the mills would be permitted to return to their old jobs, that the pooling system would be done away with, etc. In short, everything the men demand save an advance in wages will be granted if the men return to work immediately. Manager Ryder submitted his books showing the chamber of commerce committee that it would be practically impossible for the company to grant the increase in wages at this time.

The inquiry which has been started will go on and according to District Attorney Jordan a request will be made for the recall of the licenses of all employment bureaus in New York City that hired men to break the strike without telling them the whole truth.

Mr. Jordan said: "The investigation furnishes conclusive proof that the employment business agency in this country is in need of a closer supervision by the government. Upon almost every page of the testimony I find proof that men were brought to the Pressed Steel Car company's plant under false representation. They were told anything but the truth, and if they asked directly if there was a strike they were told that there was not. The agencies which did this work ought to be closed, and I have no doubt they will be."

### SENT TO THE WORKHOUSE.

This Even Though Policeman Testifies He's Sober Man.

Washington, Sept. 8.—Because John Smith, a victim of tuberculosis, frequented saloons here, he is to-day serving a thirty days' term in the workhouse.

Smith had been unable to work as the result of tuberculosis and chronic indigestion, and policemen in court Monday testified that Smith was in the habit of visiting a couple of barrooms; that he was sober; created no disturbances, and stayed but a few minutes in the drinking places.

Judge Kimball declared the man was guilty under a new law and imposed a sentence of \$100 bond or thirty days in the workhouse.

### DAM SWEEPS MINING TOWN.

Property Damage By The Flood Placed at \$750,000.

Montrose, Col., Sept. 8.—Reports from Telluride tell of the breaking of the Trout Lake dam Sunday, resulting in loss of the San Miguel river valley estimated at between \$500,000 and \$750,000.

Saw Pit, a little mining hamlet, is said to have been washed away by the eighteen-foot wall of water. The town of Placerville, it is feared, was seriously damaged, as it is almost in a direct line of the flood.

No loss of life is reported as, at first signs of the dam's weakening, horsemen were sent through the valley to warn the residents. Crops in the lower valley were seriously damaged.

### TAFT'S LIFE THREATENED.

Chief of Police Has Received Two Alarming Letters.

Chicago, Sept. 8.—Two letters threatening the life of President Taft during his visit in Chicago now in the hands of Captain Porter of the secret service officials of the city, with the result that efforts will be made to make the chief executive of the nation the most guarded president that ever came to Chicago. Captain Porter was inclined to believe the threats, although he began making preparations immediately to prevent the possibility of an attack on President Taft.

### SUPREME COURT SHORT.

Two Members May Miss The Opening.

Washington, Sept. 8.—According to reports here Associate Justice John M. Harlan of the United States supreme court may not be able to sit on the bench when the court meets for the October term. His health is not good and he may go to California to recuperate. As Associate Justice Moody is not expected to be able to resume his work on the bench this fall, this would make two temporary vacancies. Justice Harlan will be seventy-seven his next birthday. It has been repeatedly reported that he would retire, but he has never seen fit to do so.

### ANOTHER FLOOD IN TULA.

Mexican Town Suffers Further Damage.

Mexico City, Sept. 8.—The town of Tula, in the state of Tamaulipas, has been visited by another flood. A number of houses were carried away and rich plantations were destroyed. Abject misery prevails in the district. The destruction of the cart roads will make most difficult the sending in of relief from the outside. General Trevino places the deaths for the state of Nuevo Leon officially at 1,200. The towns of Adama, Da Cos and Aramberri are reported destroyed, making ten towns in all partially or wholly destroyed by the recent floods.

## GAYNOR TO RUN FOR MAYOR

He Will be Candidate as an Independent

### JUDGE WILL NOT DECLINE

Any Party's Indorsement—He Expects the Support of Tammany—Reviews Situation; Assails "Mere Political" Control.

New York, Sept. 8.—Supreme Court Justice William J. Gaynor of Brooklyn has announced his willingness to become a candidate for mayor, in a letter written to a committee of influential Brooklyn citizens who urged him soon after his return from Europe to enter the fight. Justice Gaynor reviews the entire mayoralty situation, assails "mere political control," which has resulted in "apollation of the city treasury." He declares, however, that he has reason to believe that he will receive the Democratic nomination and Republican support, as well as that of the Independence League. An interesting part of the letter is that in which Justice Gaynor refers to the printed statements that he would not receive the indorsement of the Republican organization unless he made some definite pledge of his position. While declaring that he does not believe that the majority of the organization demand any such condition of him, he emphatically states that he will pledge himself to no organization. "I shall not take a nomination from any organization to which is annexed any pledge, promise or condition whatsoever other than to be mayor in fact, and do my duty if elected," says he.

In referring to his expectation of welcoming all voters to his standard, Justice Gaynor says: "When an organization or party vouches for one and nominates him and wants him elected I have always understood that it welcomes help from any and all quarters to elect him. He goes on to make the significant declaration that he has received assurance from influential Democrats that the Tammany city convention will give him an "unconditional nomination" and that "no one can prevent the election of delegates who will nominate me." He states that he is aware that there is opposition to him in the organization, but that he does not believe "an undivided delegation can be brought into the convention opposed to my nomination. As to the Independence League," he continues, "inasmuch as it has always stood for the uplifting of city government, I think I may justly expect its support." Justice Gaynor concludes with a solemn pledge to discharge his trust with fidelity and honesty, ending with the words, "No party or party machine can drug us if we stand fast together; on the contrary, we may lift city politics up in all parties, and make the apollation of the city's treasury, through mere machine political control, a thing impossible in the future."

### OFFERS \$50,000,000 BONDS.

Turkey Plans an Amortisation Fund.

Washington, Sept. 8.—The Turkish government has invited bids for \$50,000,000 bonds bearing four per cent. interest with one per cent. for amortization fund. The Imperial Ottoman Embassy in Washington yesterday announced officially that on the strength of Article 36 of the financial law for the current financial year, the Imperial Ottoman ministry of finance has decided to contract a loan of five million Turkish pounds (approximately \$30,000,000) at the rate of interest being four per cent. and the rate of amortization one per cent.

### Murder Mystery in Detroit.

Detroit, Sept. 8.—Tied in a bag, the torso of a young girl was discovered yesterday in Ecorse creek at Ecorse, a down-the-river suburb of this city. The head, arms and legs were not to be found, and it was impossible to identify the body.

### EXTRAORDINARY HAIR TONIC

It Won't Grow Hair on Bald Heads.

Unlike all other hair restorers, Parisian Sage won't grow hair on bald heads. Neither will it grow hair on china eggs, door knobs or hitching posts.

One claim is about as sensible as the other.

If your head is bald and you want to cover it with hair, get a wig. Parisian Sage, the quick-acting hair rejuvenator, is of no use to bald headed people; but for people who have thin hair, falling hair and dandruff, and where the bald spot is just beginning to show, there is nothing in this wide world that will give such satisfactory results as Parisian Sage.

Parisian Sage is guaranteed by The Red Cross Pharmacy to drive out dandruff and stop falling hair in two weeks, or money back. It stops itching scalp in two days, and keeps the scalp cool and free from odors in warm weather.

There is nothing on earth that will so quickly turn dull, faded hair into lustrous and luxuriant hair as Parisian Sage.

Try a bottle of Parisian Sage at The Red Cross Pharmacy's risk. Use it for a week, and you will have no use for the ordinary tonics. Parisian Sage is de-lightfully perfumed, free from grease and stickiness, and a large bottle costs but 50 cents. The girl with the auburn hair is on every bottle.

### VERY UNEASY.

Stock Market Operations Show Little Confidence Today.

New York, Sept. 8.—An opening break of 5½ points in Union Pacific, 3½ in Southern Pacific, 2½ in New York Central, 2½ in Reading and 1 in 14 in most other active speculative stocks showed the great anxiety yesterday in stock market circles. The reports of a release suffered by E. H. Harriman while the stock exchange was closed for a three days' holiday, was responsible for the break.

The sales here were not particularly large, but the tone at first was semi-demoralized.

After the opening, vigorous support was exerted and prices rallied immediately. Within a few minutes, an announcement was forthcoming from the Union Pacific offices that Mr. Harriman was much better, a recovery set in and the appearance of the market became quieter.

The decline was arrested and there was some recovery of prices, but the hesitating fluctuations which followed showed the uncertainty of sentiment and indicated a feeling of some suspicion regarding Mr. Harriman's improvement.

The prices sank to the low level of the morning and again it was reported that no word from Mr. Harriman had been received at the Union Pacific offices today. The selling was
